

And It Came To Pass

**And it came to pass,
The storms that racked this old ship upon the seas
And when the clouds had rolled away
No damage could be seen.**

**And it came to pass,
The troubled road this heavy heart had trod
And when the tears had stopped falling
I seen it had only brought me closer to God.**

**And it came to pass,
And now the memory is so sweet
The sorrow of loved ones gone on,
As I look to that day when once again we will meet**

**And it came to pass,
The pain that racked this old body
And when the healing was complete
I could still feel the hand that had touched me**

**And this trial you're going through now
It too shall pass
Just hold on to His hand
And the angry seas won't last
And listen for the voice
That says to the winds peace be still
And it will come to pass
You'll be found in the center of God's will**
